

The Visor Display is a rugged, 8" LED backlight, LCD display designed for harsh environments where space and weight are at a premium. Typical installations include naval and ground mobile applications. Compact size and weight make it ideal for use in the drivers compartment either mounted on the visor or a mechanical mount; and folded away when not in use.

### Features include:

LA0801 can be integrated in a Battlefield Management System (BMS), Vision Enhancer (SP0206), Local Situational Awareness System (LSAS) or Man Portable Systems.

#### Options include:

- Colour
- Programmable Keys
- Rechargeable Battery

### Technical Specification:

Power dissipation	~3W Typical
Brightness	300 Nits
Operating Temperature Max	+60°C
Operating Temperature Min	-40°C
Resolution	1024 x 324
Contrast ratio	500 : 1
EMI/EMC	Mil-STD-461 / DEF-STAN-59-411
Weight	<1kg
Overall dimensions (Ex. Connector)	232mm x 116mm x 23.5mm
